DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Accordingly, claims 48, 50, 52-54 are being examined.

The following are the remaining rejections.

REJECTION UNDER 35 USC 112, FIRST PARAGRAPH, NEW MATTER

Rejection under 35 USC 112, first paragraph of claims 48, 50, 52-54 pertaining to new matter remains for reasons already of record in paper No.11.

Applicant asserts that the specification discloses the effectiveness of 10%, 15% and 30% of trehalose in preventing aggregation.

Applicant asserts that the dictionary meaning of the term "at least" is "at the minimum", and thus specifying the minimal amounts of trehalose required for effectiveness in terms of "at least" 10%, 15% or 30% is proper as it would have been understood as minimum concentrations by one of skill in the art.

Applicant's arguments set forth in paper No.12 have been considered but are not deemed to be persuasive for the following reasons:

It is noted that "at least" reads on "at the minimum", which is at any concentration above 10%, provided the minimum is 10%.

The specification lacks support for any effective concentration above 10%, for example 100-2000% trehalose.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
